A journey from Notification to College

COLLEGE KAKA
NEET COUNSELLING
2024

What is **NEET** Counselling ?

After qualifying NEET exam the next step is to take “NEET Counselling”. Candidates get admission in medical institutes all over India through counselling. These seats are allotted on the basis of NEET counselling mode. Preferred college is available on the basis of All India Rank of the candidate.

Role of **NEET** Counselling in Admission

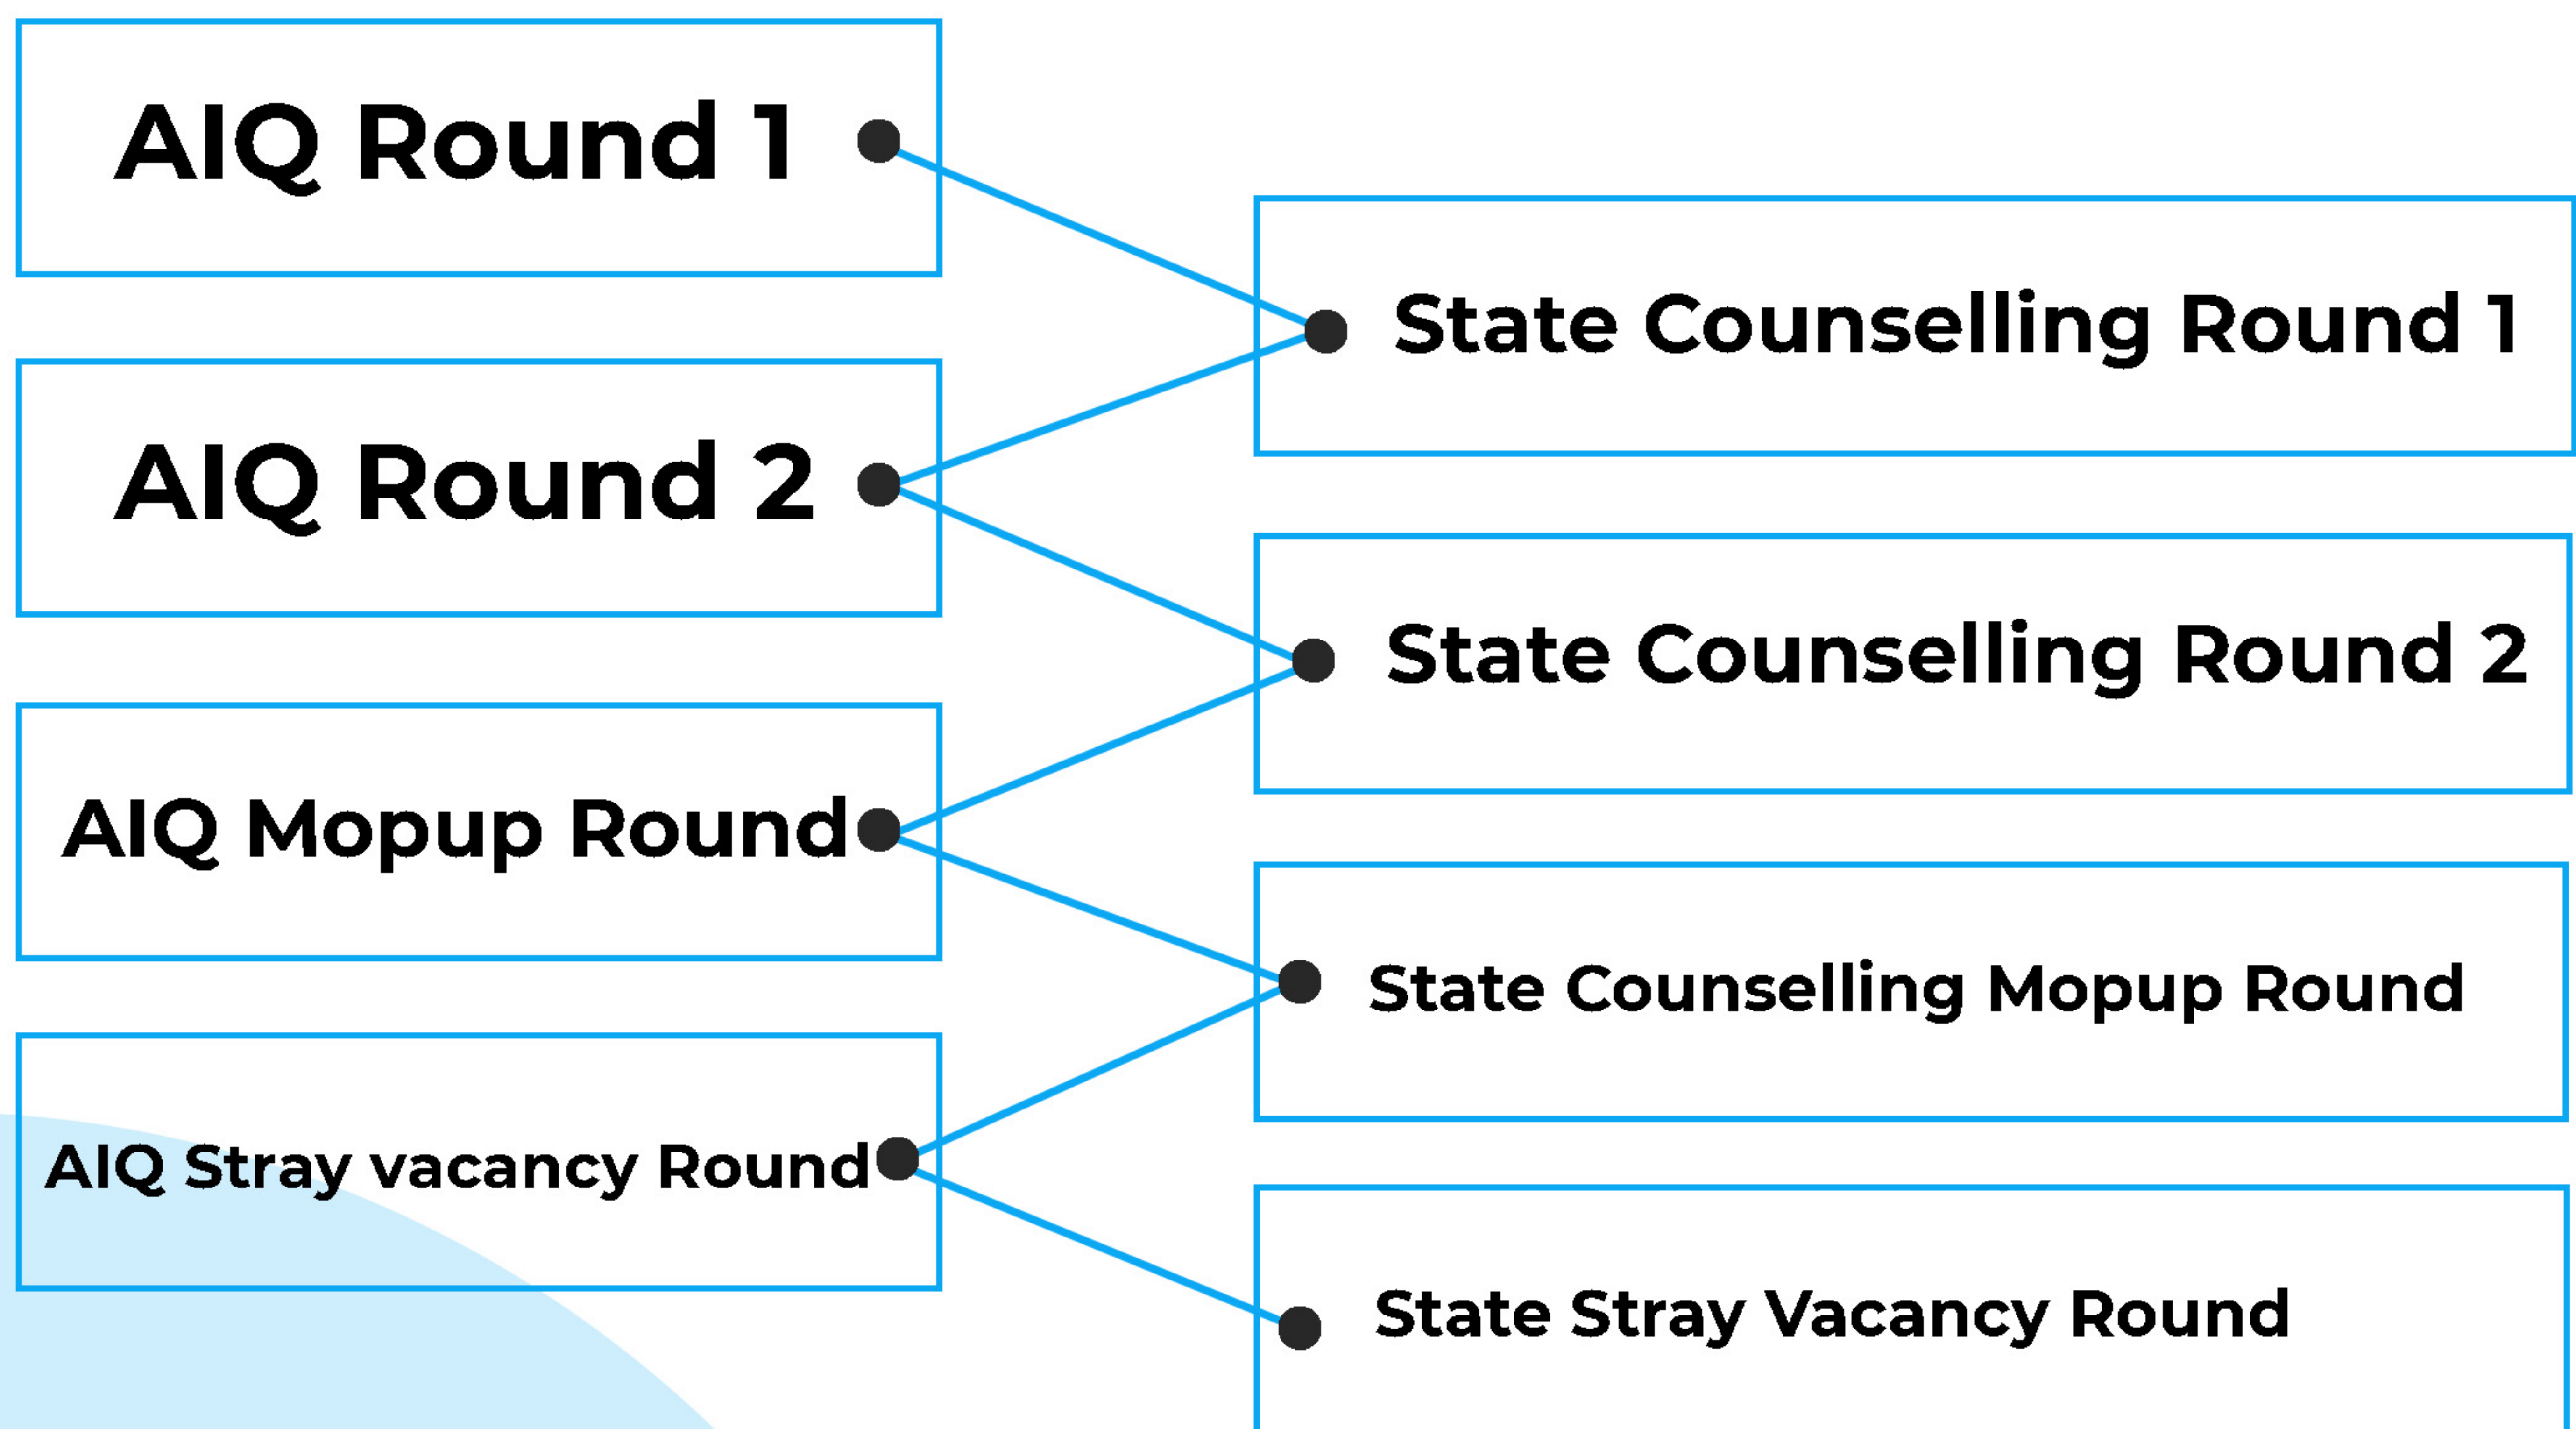

- ◆ Counselling is a standardized process by state and central medical authorities to allot seats to students in various government and private medical colleges & deemed Universities .
- ◆ Only those candidates who hold the minimum required percentile which is required for the qualification of NEET are eligible for NEET counselling and admission in a medical college .
- ◆ If you are an aspiring MBBS or BDS student, then it is important for you to know all about All India Quota (AIQ). State Quota, NEET reservation criteria, domicile rules of states and counselling procedure .
- ◆ There are few seats that are reserved for scheduled tribes (ST), scheduled castes (SC), other backward castes (OBC), economically weaker section (EWS), and also for the candidates with physical disabilities (PWD) for getting admission in medical colleges.
- ◆ It has been found that applicants experience numerous challenges in applying for various counselling processes and selecting the MBBS college via NEET merit-based counselling.
- ◆ Due to a lack of direction, candidates have been seen to choose a college that is either costly and out of their Budget or not of their taste.

NEET COUNSELLING

NEET Counselling Rounds ?

NEET Counselling 2024 will be conducted in 4 round–Round 1, Round 2, Mop-up Round, and Stray Vacancy Round. Overall, the counselling phase used to be divided into 15% All India Quota counselling and 85% state-level counselling.

Our Role and Services in NEET Paid Counselling

- ◆ There are many Application forms of exams and Counselling other than NEET which used to be released before NEET exam like CMC Vellore, IPU, Pondicherry University, KCET, IISER. Students used to miss these forms so we will notify you these on time.
- ◆ The process of NEET Counselling is very complicated and a single mistake can cause a big trouble for the student who worked hard for this exam. We used to be with you from now to the last round of the counselling. So you will get direct contact with our senior expert counsellors till last round of counselling. You can ask any query or doubt to him/her.
- ◆ Choice filling of preference list is a very important step as many students do not get the desired college due to lack of knowledge and wrong choice filling. We used to make a customised choice filling preference list for each and every enrolled student on the basis of his/her marks, rank, category, state and preferred colleges. Preference list in the Counselling will be made by Dr. Himanshu Ojha Sir according to marks of the student.
- ◆ Many students get trouble in Form filling, getting notifications and notices of NTA, MCC and state authorities on time, in documents lists, formats of documents, fees and cut off of the colleges and the whole process of Counselling. We used to make these things simple for you by sending a video of filling a dummy application form, giving you all the notifications on time, help you to make and collect all the documents, by providing you the cut offs, fees of colleges and to explain you the complete process of Counselling.
- ◆ Many students do not get back their refundable fees of Counsellings of All india and States due to mistake in any one step . We used to assure your refundable fee back to you after completion of counselling.
- ◆ You just need to subscribe our paid counselling and be relaxed till last round of the counselling from now. We will take care of your admission, you just need to give your best in the exam.
